ARTICLE 2-7

The Member must follow the ordering procedure.

After making their choice and verifying the specifics of the service, the Member makes their payment primarily on the Association's website : <https://www.airbornecenter.com>

ARTICLE 2-9

A-CENTER reserves the right to cancel a service due to adverse weather conditions, insufficient safety conditions, or any other case of force majeure beyond its control.

This cancellation can take place just before takeoff or even during the flight.

In this case, A-CENTER will not be liable for travel or accommodation expenses incurred by the Member to travel to the location where the service is performed.

ARTICLE 3-0

If the Member refuses to perform a service (for example, refusing to jump or board an aircraft), the service is considered to have been performed and the full price remains due. No claim will be considered.

The same applies in the case of a Member who does not show up for the scheduled appointment (day and time) for the provision of a service. The same applies if they arrive late.

ARTICLE 3-1

Access to the aircraft is subject to successful completion of written and practical assessments (harness fitting, demonstration of acquired skills, landing, etc.). The office and instructors will disqualify any candidate who fails to pass the tests. No refund will be issued, but the candidate may try again at the next Jumpschool session without paying any additional fees.

ARTICLE 3-2

In the event of force majeure and at least seven (7) days before the performance of a service, the Member may request to transfer the sums already committed to another service of the same type taking place later.

In order to cover all or part of the costs incurred by A-CENTER, 20% of the total cost of the service paid by the Member will be deducted from the amount thus carried forward.

Furthermore, the notion of force majeure must be justified by the Member: medical certificate, sick leave, proof of accident...

In the absence of justification, the service will be considered as having been performed and no refund or postponement will be granted.

ARTICLE 3-3

If a Member abandons a service during its execution, no refund will be issued, except for medical reasons confirmed by a doctor.

In this case, the refund amount will be calculated pro rata to the number of jumps completed, and fixed costs (license, center card, administrative fees, equipment provided, etc.) will be deducted.

ARTICLE 3-4

For the reasons stated in Article 1-3, A-CENTER cannot guarantee that a service will be provided at a fixed, firm, and definitive time. The meeting time communicated is indicative only. Nevertheless, the Member must respect this time and allow sufficient time to perform the service under the best possible conditions. If the Member does not make the necessary arrangements, the service will be considered fully completed, and no refund will be issued.

ARTICLE 3-5

The performance of a service depends closely on weather conditions, aircraft and equipment used, all with a concern for safety.

Instructors, jumpmasters, pilots, para club or airfield managers, members of the Association's Board or any other authority in charge of the proper execution of a service, may at any time decide to postpone it, cancel it, revise the conditions of parachuting... in case of meteorological, technical, health problems... that may affect safety.

ARTICLE 3-6

The minimum age for the practice of hemispheric parachuting set by the A-CENTER association is 16 years of age (with written parental consent).

ARTICLE 3-7

For safety reasons and to comply with the technical specifications provided by the parachute manufacturer used by A-CENTER, the jumping Member's weight must be around eighty-five kilograms (85 kg) maximum on the day of the jump. If this weight is significantly exceeded, the service providers reserve the right to refuse the Member's permission to jump. The Member's BMI (Body Mass Index) will also be taken into consideration by the service providers when deciding whether to approve or refuse the jump.

Below is the BMI calculation, for informational purposes only:

$$IMC = \frac{\text{poids (en kg)}}{\text{taille} \times \text{taille (en m)}}$$

In the event of a clear and deliberate concealment of the weight, the service will be considered to have been performed and full payment will be required, without any possibility of claim.

ARTICLE 3-8

The age, height, weight (BMI), and mobility criteria of the Member are taken into account by instructors, jumpmasters, pilots, skydiving club or airfield managers, members of the A-CENTER Board, or any other authority responsible for the proper execution of a service. They reserve the right to accept or refuse any Member they deem unfit to skydive. In this case, the amount paid upon registration will be refunded after deduction of the expenses incurred by the Association.

ARTICLE 3-9

The jumper must be in good physical and mental health and not be suffering from any condition or illness that contraindicates the practice of skydiving; not have had an accident recently, not be undergoing medical treatment that may alter their mental and physical state, not suffer from problems with the lower limbs, spine, heart, ENT, loss of consciousness, epilepsy... and not be pregnant.

Members are required to present a medical certificate of fitness for skydiving (issued by a physician) upon registration and to inform A-CENTER of any specific needs such as wearing contact lenses, prostheses, or any other characteristic that may impact skydiving and the member's safety. In the event of any changes between membership and participation in an activity, the member is required to inform the Association.

A-CENTER reserves the right to prohibit from jumping any Member who has concealed a characteristic (physical, physiological, psychological or psychic) which may compromise his safety and/or that of others. The same applies if the Association detects such a characteristic in a Member during a service.

In either of these scenarios, no claim will be considered and the Member will have to present themselves with a new certificate of aptitude for the practice of parachuting.

A set of the official uniform (HBT coveralls) is provided to every Member participating in the initial training. If for any reason A-CENTER is unable to provide the Member with this item, they will be permitted to wear clothing whose color and cut resemble that of the official uniform, until they can obtain it or until the Association provides it.

Wearing a beret or police cap (= skullcap) will be accepted by A-CENTER only under the following conditions:

- Graduation/Certificate Award Ceremony (for Members who can provide proof)
- If wearing them represents consistency with wearing historical reenactment attire, only during commemorative jumps or demonstrations, once on the ground.

Overall, the wearing of any uniforms, insignia/decorations or attributes that could lead one to believe that the Member is active within an existing military or law enforcement force (national or foreign) is prohibited.

The Member caught wearing an unauthorized/unjustified uniform will be immediately excluded from the current service, from the Association and will be the subject of a complaint for illegal wearing of uniform, decoration or rank.

ARTICLE 4-3

The Member is required to respect the safety rules in force displayed in the airfields, para clubs, and structures welcoming him and the Association, written in the internal regulations of the Association or practiced by the aircraft we use.

Otherwise, the offending Member will be excluded from the service. The service will be considered rendered and full payment will be required, without any possibility of appeal.
